

COMPACT High Flow Oxy Regulator, HP Supply

SKU: TR92

This high flow regulator is suitable for most manifold high flow applications such as heavy heating, machine cutting, heavy cutting (i.e. above 400 mm) plate splitting, mechanical welding, "J" grooving, etc. The TR92 is particularly suited to Oxygen enrichment or Oxygen injection applications. Ideally suited to high pressure manifold systems and "G" size cylinder packs.

COMET 5000 EHP Oxy Regulator 20000kPa

SKU: 301562

COMET 5000 High Pressure Regulators are ideally suited for industrial or laboratory work, pneumatic loading of test apparatus, static testing of pressure components, pressurising high pressure systems or high pressure decanting. Based on the COMET regulator design. Provides safe and accurate control of pressures up to 20,000kPa (2,800psi). 20,000 kPa models are fitted with a [...](#)

CutSkill LPG Regulator SI 400kPa

SKU: 201003

CutSkill regulators conform to AS4267 and are factory set to deliver the correct maximum pressure or flow. CutSkill regulators are based on the Comet design that offers robust construction combined with renowned CIGWELD quality and represents genuine value for money. The regulator is failsafe against overpressure Diaphragm is protected against flashback Robust Failsafe and accurate [...](#)

CutSkill Oxygen Regulator VI 800kPa

SKU: 201001

Specifically designed for the budget conscious buyer, CutSkill regulators offer excellent quality and performance for use with most light to medium applications. CutSkill regulators conform to AS4267 and are factory set to deliver the correct maximum pressure or flow. CutSkill regulators are based on the Comet design that offers robust construction combined with renowned CIGWELD [...](#)

CutSkill Acetylene Regulator VI 150kPa

SKU: 201002

Specifically designed for the budget conscious buyer, CutSkill regulators offer excellent quality and performance for use with most light to medium applications. CutSkill regulators conform to AS4267 and are factory set to deliver the correct maximum pressure or flow. CutSkill regulators are based on the Comet design that offers robust construction combined with renowned CIGWELD [...](#)

COMET EDGE ESS3 LPG Regulator 400kPa

SKU: 301525

The COMET EDGE ESS3 LPG Regulator is a smaller bodied model that offers the same EDGE Regulator technology as the larger ESV4 Oxygen/Acetylene variants, incorporating advanced design, proven performance, and unsurpassed safety. Engineered to meet the demands of the professional, the COMET EDGE Series is suitable for the majority of cutting, welding and heating applications.

COMET EDGE ESS3 Argon Regulator 45Lpm

SKU: 301526

The COMET EDGE ESS3 Argon Regulator is a smaller bodied model that offers the same EDGE Regulator technology as the larger ESV4 Oxygen/Acetylene variants, incorporating advanced design, proven performance, and unsurpassed safety. Engineered to meet the demands of the professional, the COMET EDGE Series is suitable for the majority of welding applications. The most advanced [...](#)

COMET EDGE Argon Preset Regulator 200kPa

SKU: 301527

The COMET EDGE ESS3 Argon Regulator is a smaller bodied model that offers the same EDGE Regulator technology as the larger ESV4 Oxygen/Acetylene variants, incorporating advanced design, proven performance, and unsurpassed safety. Engineered to meet the demands of the professional, the COMET EDGE Series is suitable for the majority of welding applications. Preset to 200kPa [...](#)

COMET EDGE ESV4 Acetylene Regulator 150kPa

SKU: 301532

The COMET EDGE Series is the latest range of regulators incorporating advanced design, proven performance, and unsurpassed safety. Engineered to meet the demands of the professional, the COMET EDGE Series is suitable for the majority of cutting, welding and heating applications. The most advanced regulator design introduced to the market in 20 years. Regulators are colour coded [\[...\]](#)

COMET EDGE ESV4 Oxygen Regulator 1000kPa

SKU: 301637

The COMET EDGE Series is the latest range of regulators incorporating advanced design, proven performance, and unsurpassed safety. Engineered to meet the demands of the professional, the COMET EDGE Series is suitable for the majority of cutting, welding and heating applications. The most advanced regulator design introduced to the market in 20 years. Incorporating our [\[...\]](#)
